

WATERMARK
DISTRICT

There's a new energy coming.

A new district is breaking ground, leaving its mark on Houston's globally renowned West Houston Corridor.

Watermark District will re-imagine how the "Energy Capital of the World" is perceived, with Class A office, retail, and restaurants surrounded by waterfront views and outdoor walkways, providing a calming yet lively environment with countless lifestyle amenities.

By tapping into the fastest-growing region of Houston, this district will set the stage for growth and innovation by attracting the top minds in their respective fields.

This is **Watermark District**.

Preserve & Transform...

Watermark District will celebrate the nature and water found in the 70-acre destination while preserving the land's elaborate history.

There will be multiple opportunities to tap into abundant natural light throughout the campus, immersing employees in an indoor-outdoor work environment. Also, more than 500 existing trees will be protected on-site, allowing for a serene atmosphere for employees, restaurant-goers, and all who experience the District.

Environmental & Social Initiatives

Midway is committed to leadership in sustainability and corporate responsibility in our operations, our developments, and in our social and community relationships. This commitment aligns with our purpose of creating enduring investments and remarkable places that enrich lives. If anything, our purpose is limited if we fail to reach for ESG excellence with our investment executions, operations, and relationships.

“THE GREENEST BUILDING IS THE ONE THAT ALREADY EXISTS”

- Carl Elefante, Former President of the American Institute of Architects

JONES ON MAIN

PROJECT HIGHLIGHT WATER CONSERVATION + WATER QUALITY

East River has incorporated certain low impact development features in the design of its infrastructure to help address storm water quality and quantity issues.

At East River 9 golf course, a permit is in process with the city and state to use water from Buffalo Bayou to irrigate the greens and landscaping throughout the course.

We create communities, not commodities.

Timeless quality

What We Believe

Integrity

Authenticity and transparency are central to our conduct; we say what we mean and honor our word.

Passion

Passion is the fuel that drives us forward. A passionate group of people working toward common goals, we can accomplish the unthinkable.

Adaptability

We instinctively look at the world with open eyes and anticipate change. This gives us the resolve to differentiate ourselves from the commonly accepted formula.

Quality

We believe quality is the end result of our high intentions, sincere effort, intelligent direction, and skillful execution; it represents the wise choice of many alternatives.

Initiative

We strive to make a difference, regardless of obstacles and resources.

Teamwork

When we succeed together, without worrying about who gets credit, we succeed with humility.

Urgency

Having a sense of urgency is critical in everything we do. We act promptly and with intention, striving to make things happen efficiently and effectively.

Generosity

Our talents were not given to us solely for our own benefit and success, but also to enable us to give back and make a positive impact in the lives of people in the communities where we live and work.
